

Program Committee:

Alexei A. Bogdanov, Jr. (UMASS, Worcester, MA)
Alexander G. Gabibov (IBCh RAS, Moscow, Russia)
Alexander V. Kabanov (UNC, Chapel Hill, NC)
Anand T.N. Kumar (MGH, Charlestown, MA)
Konstantin A. Lukyanov (IBCh RAS, Moscow, Russia)
Leonid B. Margolis (NICHD, Bethesda, MD)
Alexander P. Savitsky (FBRC RAS, Moscow, Russia)
Valery V. Tuchin (SSU, Saratov, Russia)

Call for papers: “Towards optical and multimodality translational imaging” - conference held virtually together with the VIII International Symposium on Optics and Biophotonics

On behalf of the Program Committee and its sponsors we cordially invite you to present your innovations, advancements, and knowledge at the virtual Conference **“Towards optical and multimodality translational imaging”** which will be held together with the VIII International Symposium on Optics and Biophotonics on-line from September 29 to October 2, 2020

<https://sfmconference.org/>

<https://www.sgu.ru/structure/fiz/saratov-fall-meeting/towards-optical-and-multimodality-translational>

The main goal of the Conference is to cover basic and translational aspects of optical, MR molecular and cellular imaging, to promote on-line discussions and to foster future collaborations.

We would appreciate to receive your Zoom-recorded or Powerpoint/audio presentation by 20th of September.

The registration for virtual participation, submission of abstracts is opened now.
